# Native Plants, Soils & Habitat Features

9AM - 5PM

MOORE FARMS BOTANICAL GARDEN, LAKE CITY, SC

We invite practitioners and professionals to join us for a one-day training to enhance base knowledge of the living components of nature-based design. Using a whole-systems approach, lessons will explore best practices for plant, soil, and habitat feature selection, design, construction, management, and maintenance.

Registration will open on March 25, 2024.

Learn more at <https://www.naturebasedexchange.org/training1>

*Registration fee: \$125 (without the purchase of a printed Compendium) or \$150 (with the purchase of a printed Compendium)*

Continuing education credits will be available for planners, floodplain managers, engineers, and landscape architects,

*Credits provided by the ACE Basin NERR Coastal Training Program/SCDNR and the SC Chapter of the ASLA.*
